

A World Of Fruit And Vegetables

Catherine Brentnall

Part 1

How many vegetables can you name?

Ten, twenty, or more?

There are actually thousands of diff'rent kinds,

A whole world of them to explore.

Some types will grow best where the climate's hot,

Others will thrive where it's cold.

Diff'rent conditions around the globe,

Create variety untold.

Chorus

There's a whole world of fruit and vegetables,

Diff'rent colours and tastes to compare,

No matter where you are please celebrate,

The goodness growing there.

Part 2

Jackfruit in Bangladesh,

Blueberries in Canada,

Mangoes in India.

Parsnips in Britain,

Taro in Cyprus,

Plums in Serbia.

Lima beans in Peru,

Avocados in Mexico,

Yams in Nigeria.

Guava in Pakistan,

Persimmons in China,

Quandong in Australia.
