

# Dream On

Simon Roberts

## Chorus

Dream on, dream on,  
There's a planet that we have to work to save.  
Dream on, dream on, for Earth.  
Dream on, dream on,  
Have to take this from the cradle to the grave.  
Dream on, dream on, today.

## Verse 1

We've seen the plastic in the sea,  
This is a job too big for you and me.  
If we can get ready,  
We can make a difference ev'ry day.  
If ev'ry person plays their part,  
It's no solution but it is a start.  
Shout it loud and clearly,  
The children of tomorrow are today.  
We're the future and we want our say.

## Chorus

### Part 1

Dream on, dream on,  
Help us make tomorrow better than today.  
Dream on, dream on, our way.  
Dream on, dream on,  
Help us all to save the planet right away.  
Dream on, dream on, today.

### Part 2

Dream on, dream on,  
Help us make tomorrow better than today.  
Dream on, dream on, our way.  
Dream on, dream on,  
Help us all to save the planet right away.  
Dream on, dream on, today.

## Verse 2

### Part 1

Reuse, recycle is our thing,  
The flowers we plant will cause the bees to sing.  
Shout it loud and clearly,  
Ev'ry nation needs to do their part.  
Each head of state must make a pledge,  
To take our planet from destruction's edge.  
We can see it clearly,  
The only way is upward and we know,  
We know,  
The eco way's the only way to go.

### Part 2

Dream, dream on,  
Dream, dream on.  
Shout it loud and clearly,  
Ev'ry nation needs to do their part.  
Dream, dream on,  
Dream, dream on.  
We can see it clearly,  
The only way is upward and we know,  
We know,  
The eco way's the only way to go.
