

# Food Waste

Iain Gilmour

## Verse 1

People fuss about greenhouse gases,  
Try to work out who should get the blame.  
Here's a shocking statistic for you:  
The biggest problem isn't planes.  
Wasted food gets put in landfill,  
Where it starts to rot.  
Six per cent of emissions,  
That's an awful lot.

## Chorus

We must reduce our food waste,  
We must reduce our food waste.  
Our habits are a disgrace,  
We must reduce our food waste.  
Making a difference by making a change today.

## Verse 2

Use a list when you go out shopping,  
Only buy the food you really need.  
"Eat before" is the date to check:  
"Best before" can easily mislead.  
If there's food you haven't finished,  
Don't throw it away.  
Use the fridge or freezer,  
Eat another day.

## Chorus

We must reduce our food waste,  
We must reduce our food waste.  
Our habits are a disgrace,  
We must reduce our food waste.  
Making a difference by making a change today.  
We must reduce our food waste,  
We must reduce our food waste.  
Our habits are a disgrace,  
We must reduce our food waste.  
Making a difference by making a change today.  
We must reduce our food waste,  
We must reduce our food waste.  
Our habits are a disgrace,  
We must reduce our food waste.  
Making a difference by making a change today.  
Making a difference by making a change today.  
Making a difference by making a change today.
