

Is There Life Out There?

Catherine Brentnall

Verse 1

Looking through my telescope,
I start to wonder is there,
Maybe a planet somewhere where there's life?
I close my eyes and start to daydream,
About how aliens might look.
Would they be small and green,
Just like the ones I've seen on T.V.?
Or would they look like you and me?

Chorus

Is there life out there?
On a planet yet unknown, far away.
If there's life out there,
Will we ever get to go and meet with them one day?

Verse 2

There's so much life here on the Earth,
But Earth is just one planet,
I ask myself how can it be just us?
I close my eyes and start to daydream.
About what aliens might do.
Do they run or walk?
What language do they talk? What do they eat?
And would they like to come and meet us?

Chorus

Is there life out there?
On a planet yet unknown, far away.
If there's life out there,
Will we ever get to go and meet with them one day?

Bridge

Ev'ry night when I'm in bed,
Dreams of aliens fill my head.
I travel the galaxy searching for signs of life.

Chorus

Is there life out there?
On a planet yet unknown, far away.
If there's life out there,
Will we ever get to go and meet with them one day?
