

Magnetism

Catherine Brentnall

Verse 1

Let's learn about magnets,
And all of the things they can do,
They can pick up a nail or a staple or screw.
They're used in computers,
In motors and speakers and cranes,
They can fasten a bag or a purse or a shoe.

Chorus

Magnetism, an invisible force,
That pushes and pulls,
Repels and attracts.
Magnetism!

Verse 2

The ends of a magnet,
Are known as the poles: North and South,
This is where the forces are most powerful.
Two like poles together,
Will push each other away,
But two opposite poles will attract or pull.

Chorus

Bridge

Wonderful things can be done using magnets,
They make our lives easier ev'ry day.
Invisible forces are working around us,
Pulling together and pushing away.

Chorus

Magnetism, an invisible force,
That pushes and pulls,
Repels and attracts.
Magnetism!
Magnetism!
