Try Your Best

Emily Barden

Backing vocals

Verse 1

When you're in a spin,
Think you're struggling,
Nothing's going your way.
Just remember that,
Life needs working at,
And you'll get there one day.
Run your fastest,
Jump up high,
Reach up to the sky.

Chorus

Part 1	Part 2
Try your best, work your hardest,	Try your best,
The prize is there for you,	
So try your best, work your hardest,	Try your best,
You'll be a winner too.	
Try your best, work your hardest,	Try your best.
Make your dreams come true,	
Your best's the only best that you can do.	

Backing vocals

Verse 2

Tired of coming last,
Can't run very fast,
Lots of things in your way.
Taking part is what,
Counts for such a lot,
Know you'll get there one day.
Throw your furthest,
Lift up high,
It's easy when you try.

Chorus

Part 1

Try your best, work your hardest,
The prize is there for you,
So try your best, work your hardest,
You'll be a winner too.
Try your best, work your hardest,
Make your dreams come true,
Your best's the only best that you can do.
Your best's the only best that you can do!
