

Turn Your Fingers Green

Kate Barrett

Chorus

Grow your own fruit and veg,
What would you like to eat?
Lettuce or kale, melon or beans?
Oh what a lovely treat.

Verse 1

Make your choice and plant your seeds,
Let them germinate.
Test the ground, is it warm?
If not then you must wait.
Dig a hole, in the soil,
Place your seedling there.
Cover it up and water it,
Give it lots of care.

Chorus

Grow your own fruit and veg,
What would you like to eat?
Lettuce or kale, melon or beans?
Oh what a lovely treat.

Verse 2

As it grows feed it well,
And water when it's dry.
Be patient, soon it will become,
Healthy, green and high.
When your plant is ready,
It's time to pick or dig.
Take it home and marvel that,
Your plant has grown so big.

Chorus

Grow your own fruit and veg,
What would you like to eat?
Lettuce or kale, melon or beans?
Oh what a lovely treat.

Verse 3

Home-grown food is good for you,
It's tasty, fresh and clean.
Be proud that you have managed to,
Turn your fingers green.

Chorus

Grow your own fruit and veg,
What would you like to eat?
Lettuce or kale, melon or beans?
Oh what a lovely,
Oh what a lovely,
Oh what a lovely treat.
